South Middlesex Regional Vocational Technical School District

750 Winter Street*Framingham, MA 01702*508-416-2100*Fax 508-2234

September 10, 2026

To the Selection Committee,

It is my distinct privilege to write this letter of recommendation for Mariia Mediannikova. Having worked closely with them as a teacher at Keefe Regional Technical School, I have seen firsthand their exceptional academic drive, quantitative talent, and leadership potential. Mariia represents a rare combination of technical mastery, analytical depth, and active community engagement.

Academically, Mariia has pursued one of the most rigorous course loads available. Through Keefe Tech's Programming and Web Development program, they have developed strong software skills, complemented by advanced coursework in AP Computer Science, AP Statistics, AP Chemistry, AP European History, and AP Spanish Language and Culture. Beyond high school offerings, Mariia has taken college-level coursework in mathematics, finance, and data science. They actively apply these computational and statistical concepts to complex real-world projects, including quantitative finance modeling such as credit risk analysis and financial stress testing—demonstrating analytical maturity far beyond the high school level.

This passion for applied problem-solving extends naturally into experiential learning and leadership. Mariia served as a STEM intern through the Christa McAuliffe Center for Integrated Science Learning at Framingham State University, applying scientific principles in a collaborative environment. At Keefe Tech, they are an active member of the STEM Club and are currently leading the initiative to launch a new Finance Club to promote financial literacy and quantitative skills among their peers.

Equally impressive is Mariia's well-rounded involvement outside the classroom. As a multi-sport athlete participating in competitive cheerleading, sideline cheerleading, and basketball, they consistently demonstrate team leadership, discipline, and resilience. Successfully balancing high-level technical coursework, independent projects, and varsity-level athletics highlights their exceptional time management and work ethic.

Mariia is an intellectually curious, dedicated, and high-achieving student who will bring immediate value to your program. I give them my highest recommendation without reservation. Please feel free to reach out if you require any additional information.

Sincerely,

Deborah Frank
Lead Mathematics Teacher
